Career Objective

Motivated and detail-oriented DevOps Engineer fresher with a strong foundation in Linux, Git, CI/CD pipelines, and cloud computing. Hands-on experience with Docker, Kubernetes, and AWS through academic and self-driven projects. Skilled in automating workflows, supporting deployment processes, and improving system reliability. Eager to apply modern DevOps practices and continuously learn new tools and technologies.

Education

Bachelor of Technology: Arya College of Engineering, Kukas, Jaipur (2023-present)

Sr. Sec. School: Aadarsh Bal Vidhya Mandir, Banswara (2022-2023)

Technical Skills

Programming: Python (Basic), Java (Core Java), C++, C, Bash

DevOps & Cloud: Git, GitHub, Jenkins, GitHub Actions, Docker, Kubernetes, AWS (EC2), Terraform

Web & Systems: Linux (Ubuntu, CentOS), Nginx, Apache, Windows

Databases: MySQL, PostgreSQL (SQL fundamentals)

Concepts: APIs, JSON, CI/CD Pipelines, Basic AI/ML concepts, LLM awareness Tools: Version control (Git), Monitoring (AWS CloudWatch)

Soft Skills: Willingness to learn, problem-solving, adaptability

Projects

Java Student Management System

- Developed a console-based application using Core Java and OOP principles
- Implemented add, update, delete, and view operations using JDBC and MySQL
- Designed modular and maintainable code structure

CI/CD Pipeline for Sample Application

- Built a basic CI/CD pipeline using Jenkins and GitHub
- Automated build and deployment to an AWS EC2 instance
- Used Linux commands and Git for version control and deployment support

Internship Experience

Core Java Intern – Internshala

Jun 2025 – Aug 2025

- Worked on Core Java concepts including OOP, collections, exception handling, and multithreading
- Developed console-based Java applications to implement real-world logic
- Used JDBC for database connectivity with MySQL
- Performed CRUD operations using SQL queries
- Improved debugging, code optimization, and problem-solving skills
