SUMMARY

Motivated DevOps Engineer with hands-on experience in AWS, Docker, Kubernetes, Jenkins, Git, Linux, and CI/CD Pipeline Automation. Passionate about cloud infrastructure, automation, and continuous delivery, with practical experience gained through projects and self-learning. Strong understanding of DevOps best practices and seeking to apply technical skills in supporting reliable, scalable, and secure application deployments as an entry-level DevOps Engineer.

EXPERIENCE

DevOps Intern

May 2026 – July 2026

LinuxWorld Informatics Pvt. Ltd., Jaipur, Rajasthan, India

- CI/CD Pipeline Automation: Built and implemented a CI/CD pipeline using Jenkins and GitHub Actions, automating build, test, and deployment workflows, which reduced deployment time by 70% and cut manual intervention by 90%.

EDUCATION

B.Tech (Computer Science & Engineering)

2023 - 2027

Arya College Of Engineering, Jaipur

Senior Secondary (XII)

2022 - 2023

Adarsh Baal Vidhya Mandir (RBSE board), Banswara, Rajasthan

Secondary (X)

2020 - 2021

Adarsh Baal Vidhya Mandir (RBSE board), Banswara, Rajasthan

SKILLS

Programming & Scripting: C, C++, Java, Python, Bash, Shell Scripting

DevOps & Cloud: Docker, Kubernetes, Jenkins, Terraform, Ansible, CI/CD, AWS, Microsoft Azure, Cloud Computing, Infrastructure as Code (IaC)

Monitoring & Logging: Prometheus, Grafana, CloudWatch

Version Control: Git, GitHub, Git Bash

Operating Systems: Linux, Windows

Databases: MySQL, MongoDB

Web Technologies: HTML, CSS

PROJECTS

CI/CD Pipeline Automation

July 2026

- Built and implemented a CI/CD pipeline using Jenkins and GitHub Actions, automating build, test, and deployment workflows, which reduced deployment time by 70% and cut manual intervention by 90%.

Docker & Kubernetes Deployment

June 2026

- Containerized applications using Docker and deployed them on Kubernetes, improving deployment consistency by 95%, reducing application startup time by 40%, and enabling seamless scaling.
